

# da Vinci Color

## Open Filament Project

**XYZ** PRINTING

# Step1 Software Installation : XYZprint Beta 2.1.2

XYZprint Beta 2.1.2:

Donload link:

<https://drive.google.com/file/d/1RIWLrsnQ-IB9w4OKfX6mhlHoTzRqeTRj/view?usp=sharing>

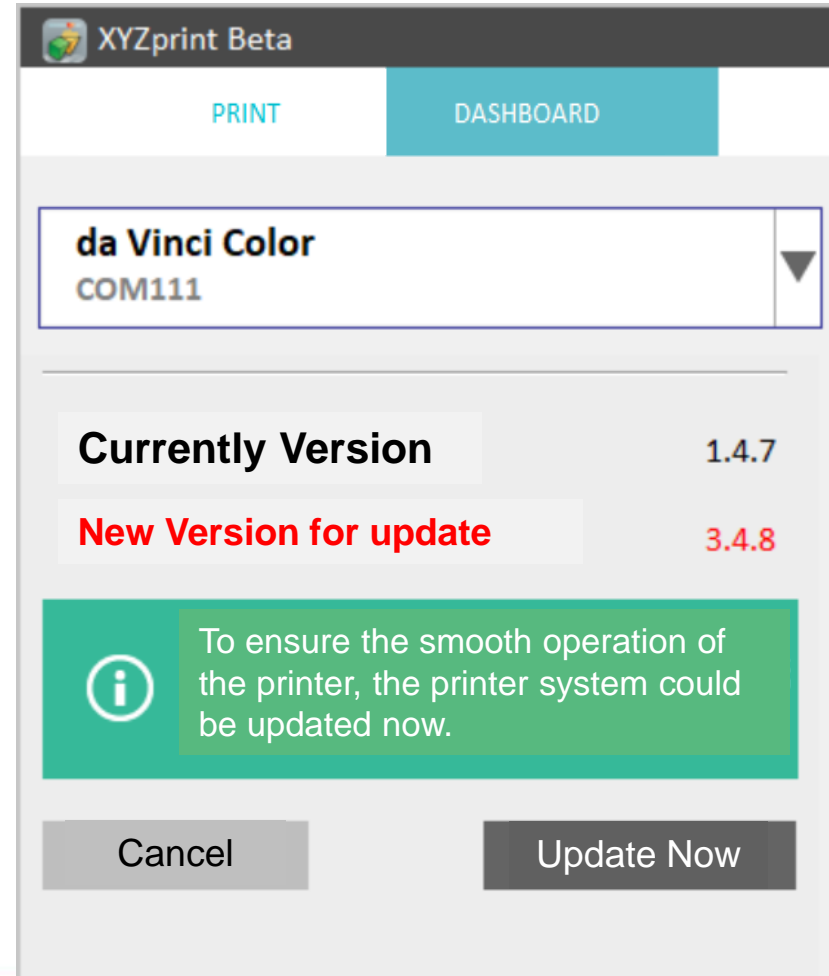

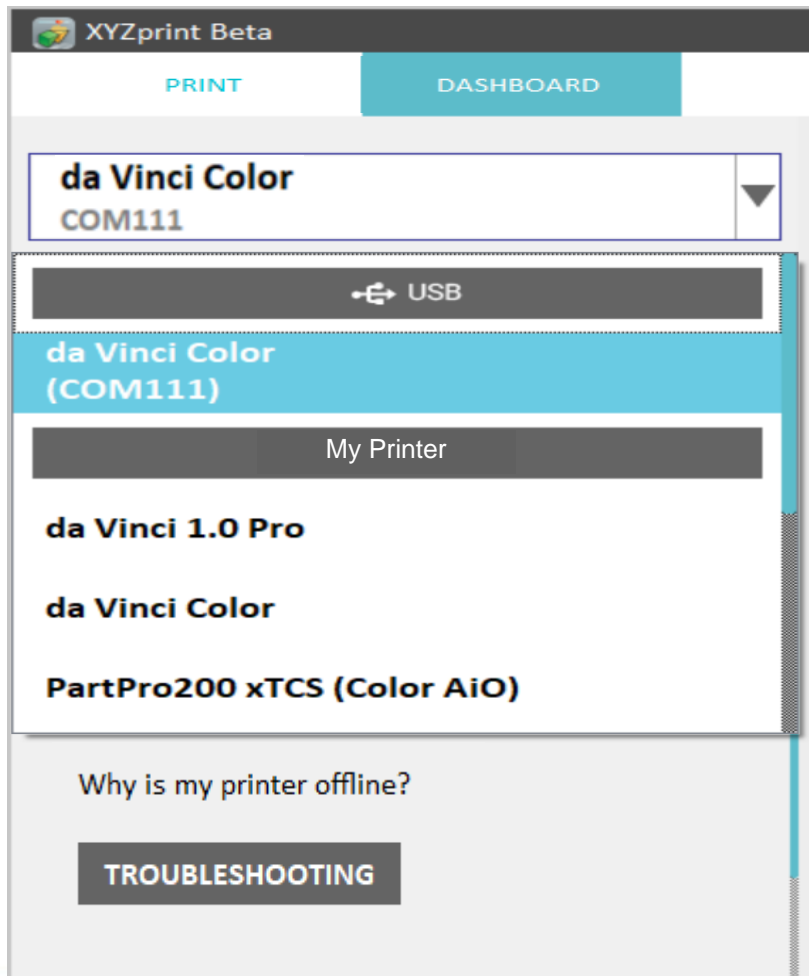

The screenshot shows the XYZprint Beta 2.1.2 software interface. The main window has a top menu bar with 'PRINT' and 'DASHBOARD' tabs. Below the menu, there's a printer selection dropdown showing 'da Vinci Color (Offline)'. A central 3D workspace contains a blue grid and the text 'XYZprinting'. An 'About XYZprint' dialog box is open, displaying the XYZprint logo, the version 'XYZprint Beta Version 2.1.2 (2B15777)', and copyright information: 'Copyright © XYZprinting, Inc. All Rights Reserved'. It also includes links for the Help Center and Contact Us. A banner at the bottom of the interface reads 'Color 3D Gallery Explore Limitless Creations' with a 'mm' unit indicator.

# Step2 Firmware Upgrade

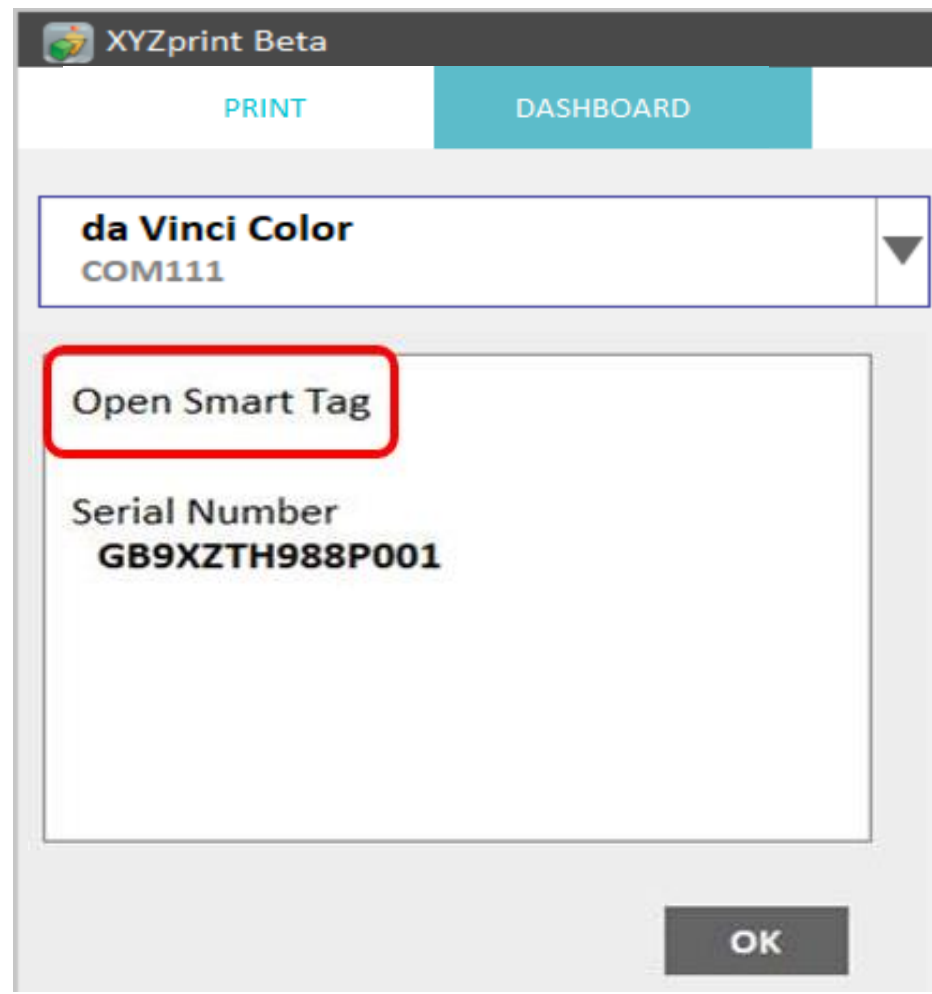

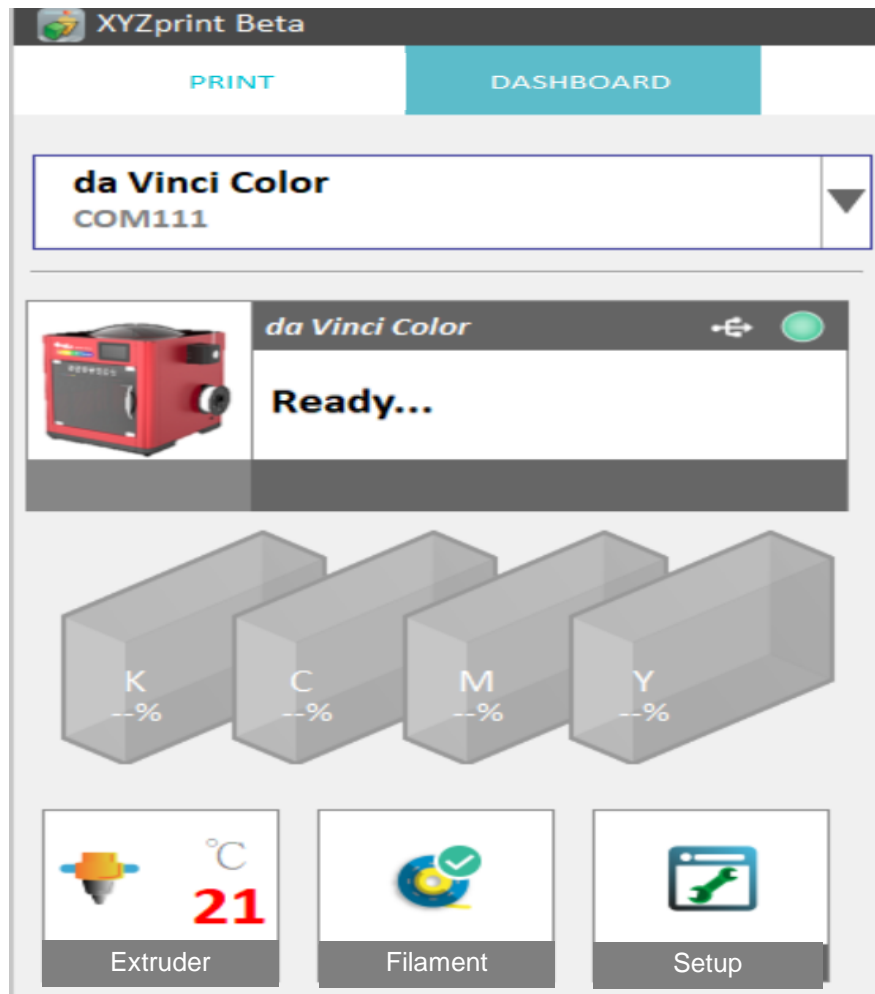

Launch the software and upgrade the firmware to 3.4.8 version. After the update is completed, the printer will automatically reboot. \*Update time is about 3~10 minutes, please wait patiently.

\* Notice  
Check does the machine automatically restart when the FW upgrade done.

# Step3 Filament Status Confirm

Click "Filament" and confirm that the status is "Open Smart Tag"

**THANK YOU**

The background is a solid red color with several large, dark red, curved shapes that create a sense of depth and movement. These shapes are layered, with some appearing to be in front of others, creating a dynamic, abstract composition.
